

It is a travesty, and a violation of the American public's trust that an almost clandestine attempt is being made to facilitate even more media consolidation, or rather monopolization, and that Michael Powell is doing nothing to prevent it. I vehemently oppose any agenda that serves to further rob my fellow citizens and myself of our own airwaves, and will hold anyone supporting such an agenda in the greatest of contempt.

I demand that this issue be given the time and the proper forums for public consideration.

A very concerned citizen,
Matt King
